From: Berkefeld Filter Anlagenbau GmbH, Celle
To: TPR Fiberdur, Aldenhoven
Project: GREAT MAN-MADE RIVER PROJECT
SARIR SIRT/TAZERBO BENGHAZI SYSTEM
TAZERBO WELLFIELD TREATMENT FACILITIES WEST
CONTRACT No. 15815-A-530-00-CT-CT-1001-00

Celle, 30.3.2006

Dear Ladies and Gentleman,

We would like to express our sincere appreciation to TPR Fiberdur in Aldenhoven, Germany, for their cooperative efforts on the supply of fiberglass pipes for the above mentioned project.

We were particularly pleased with the quality and responsiveness of your company in service, supply and engineering.

Because of your quick action and expediting there was no disruption to the project schedule. The cooperation we've received from both your field and project management forces was excellent and contributed greatly to the successful completion of this project.

Project information:

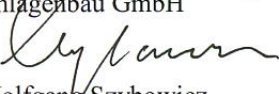

Projekt name:	Great Manmade River Project, Libya
Operator:	Great Manmade River Authority, Libya
Service:	Water treatment
Medium:	Raw water
Material:	Vinylester fiberglass pipes PN 16, from DN 25 to DN 500
Pipe length:	22.000 m
Fittings:	more then 15.000
Conditions :	Service pressure max. 10 bar
Constructed:	2002 / 2003

Fiberdur has delivered a prefabricated glass reinforced pipe system for 54 water wells, providing millions of m³ drinking water per day. TPR Fiberdur glas reinforced vinylesther pipes were ideal suited for this project. There ability to withstand high pressure and the extraordinary corrosion resistance made them the ideal choice for such installations.

Thank you for the excellent job, we are looking forward to co-operate together with Fiberdur for a next project.

Kind regards

BERKEFELD-FILTER
Anlagenbau GmbH
